Send Source to Projector

Controls for that input

Extra Controls

**The right panel contains some
additional basic controls such as:**

- **Main Volume (audience)**

- **Individual projector power on/off**

- **Lighting controls**

  - **(same options as on the wall panel)**
Panel Volume

  - **(controls the previewed volume on the
  lectern only)**

- **Shades Lower/Raise**

The DVD Player:

*The DVD player is located above the Desktop Computer.*

1. Power on the DVD player.

2. Insert a DVD into the player.

3. On the Touch Panel, push **Source Select** and choose **DVD Player**. You can control the DVD player from here.

4. Push **Send to Screen** to display the DVD on the left Projector. *If you would like the DVD to be displayed on both Projectors, repeat this selection process for the second screen.*

The VCR:

1. The VCR is located above the DVD player. Power on the VHS player.
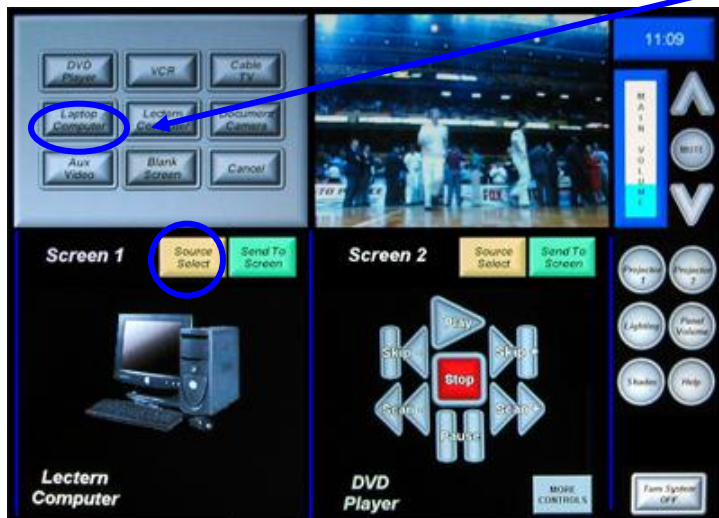

2. Insert a VHS into player.

3. On the Touch Panel, push **Source Select** and select **VCR.** You can control the VCR from here.

4. Push **Send to Screen** to display the VCR on the left Projector. *If you would like the VCR to be displayed on both Projectors, repeat this selection process for the second screen.*

1. A **VGA computer cable** with minijack sound is also available behind the touch panel, as is a **network connection and power outlet** (on the Aux panel).

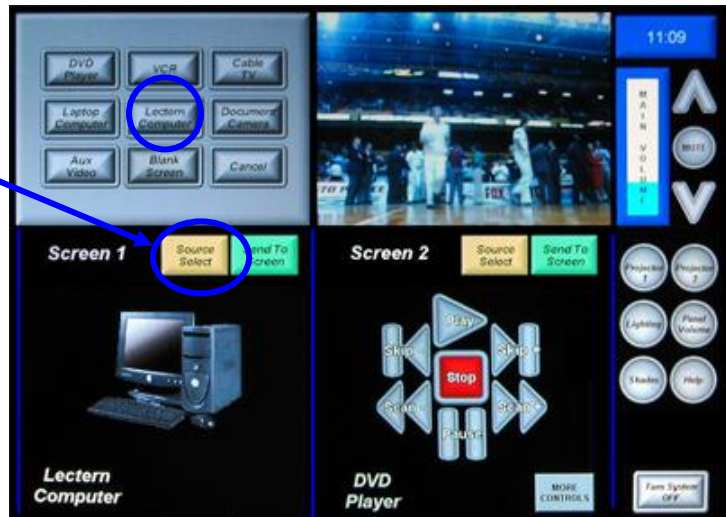

2. If you would like sound, the cable should also have a **Mini-jack connector** with the cable to provide sound. Plug it into the laptop headphone jack. *Note: Check the settings on your laptop to ensure it is set for external viewing.*
3. On the Touch Panel, push **Source Select** and select **Laptop** to display the laptop on the Plasma screen. *If you would like the Laptop to be displayed on both sources, repeat this selection process for the second screen.*
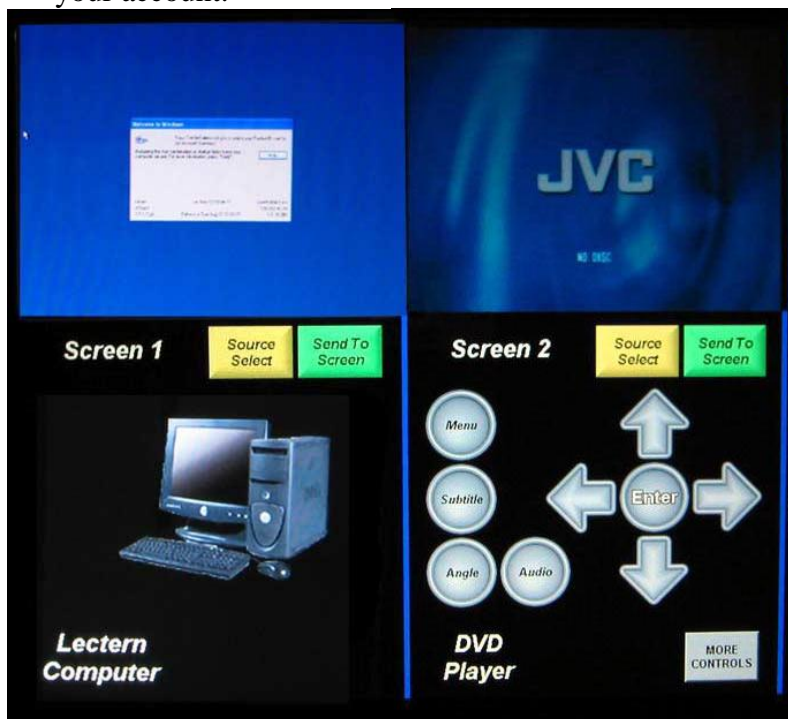

Lectern Computer:

1. On the Touch Panel, push **Source Select** and select **Lectern Computer.**
2. Push **Send to Screen** to display the Lectern Computer on the left Projector. *If you would like the Lectern Computer to be displayed on both Projectors, repeat this selection process for the second screen.*
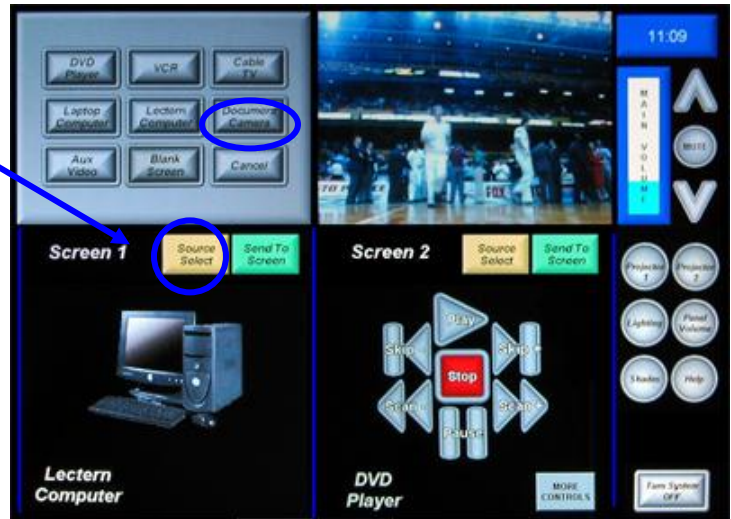

3. Be sure to log off your account in order to prevent the next user from accessing your account.

Document Camera:

1. On the Touch Panel, push **Source Select** and select **Document Camera.**
2. Push **Send to Screen** to display the Document Camera on the left Projector. *If you would like the Document Camera to be displayed on both Projectors, repeat this selection process for the second screen*

## When Projecting Text

Make sure it's big enough!!!

Any Computer Source can be used, for example:
     Word, Excell, PowerPoint, Web, etc

Any Printed Material can be used, for example:
   Handouts ,textbook copies, charts, graphs, spreadsheets

Absolute smallest font you should use is 16 pt.
 (18pt is preferable).

Cable TV:

1. On the Touch Panel, push **Source Select** and select **Cable TV**
2. Push **Send to Screen** to display the Cable TV on the left Projector. *If you would like the Cable TV to be displayed on both Projectors, repeat this selection process for the second screen*
CABLE TV CONTROLS

CABLE TV PRESETS

AUX VIDEO:

Auxiliary Video Sources may be plugged into the system with RCA cables pictured below. The source may be an additional VCR, DVD player, etc.
